

PHASEFOUR

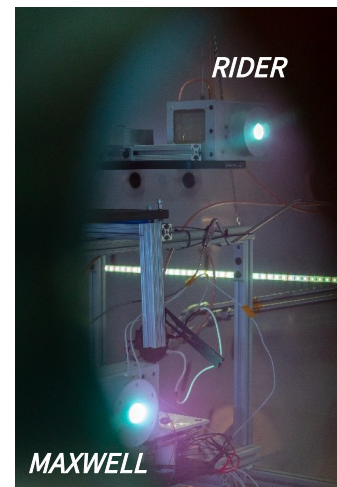

400 W class engine

Designed, built, tested in under 8 weeks

Tested at Phase Four

Performance

Power (W)	Thrust (mN)	Specific Impulse (s)
480	9 ± 1 mN	918
445	7 ± 0.5 mN	952
440	6.3 ± 0.6 mN	1286
342	4.3 ± 0.3 mN	1463

Features

No anode, no cathode

No electronics over 150 V DC

Built 100% in house using 3 axis CNC

Note:

These performance numbers do not represent Phase Four product specifications. They only signify the highest performance thruster test data Phase Four is currently disclosing.
